A prestigious, historic ‘Public Ivy’ university
As the fifth oldest university in New England, the University of Vermont is steeped in tradition yet very forward-thinking. We pride ourselves on offering a strong liberal education in a beautiful, intimate educational setting.

The University of Vermont (UVM) attracts curious, self-starting, engaged and community-focused students who are motivated to achieve. Our students consistently receive national and international awards, and 91% of our graduates are employed or in graduate school within six months of graduation. Academic quality is central to our success, and our distinguished faculty are internationally recognized for their research, scholarship and creative activity.

With a choice of over 100 majors including business, education, engineering, environment, health, and life sciences, our students have access to a broad range of studies in cutting edge fields and traditional disciplines. We encourage our students to raise their aspirations and find their passion, while we help them achieve their goals through support programs such as our popular Career Center.

Surrounded by mountains, the University of Vermont’s vibrant campus overlooks stunning Lake Champlain. Our hometown was named the #1 college town in the country by Travel + Leisure magazine. Burlington is a safe, culturally rich community in a beautiful natural setting with restaurants, nightlife, and outdoor activities a short walk away from the University.

We look forward to seeing you on campus!

Tom Sullivan
President, The University of Vermont
Why choose the University of Vermont?

At UVM, inspiration meets excellence
Named one of the original ‘Public Ivy’ institutions, UVM is ranked in the USA top 100 universities, offering a prestigious education in an inspirational setting.

International reputation
UVM is ranked 89th in the United States according to the U.S. News & World Report 2016. Our global recognition means we attract the finest students from diverse cultures and backgrounds from around the world.

The personal touch
UVM’s extensive curriculum covers the full academic range – from business and biology to engineering and the environment. Many of the academic programs are small in size, flexible, and built around your needs. We offer our students individual attention, giving them the knowledge, skills and experience to prepare for their career.

Two centuries of success
UVM is a premier research institution and it is the fifth oldest university in New England after Yale, Dartmouth, Harvard, and Brown. UVM’s rich history stretches back over 200 years. This achievement is matched only by our reputation, counting internet pioneers, leaders of state, Oscar nominees and Nobel Peace Prize winners as alumni. We promise a thoroughly fulfilling experience, with a dynamic campus life offering an abundance of activities.

Living in Burlington, Vermont

A small city with a big heart
UVM’s historic campus is located in Burlington. This college town is nestled between the Adirondack and Green Mountains, on the beautiful shores of Lake Champlain. Burlington has been welcoming tourists and students for centuries. It’s a small city with a bustling, student-focused atmosphere.

Old world charm, new world style
From boutique shopping and café hopping, to live music and even livelier nightlife, Burlington has it all. Yet it still retains a laid-back, relaxed atmosphere and historic New England charm. Recognized for its vibrant art and culture scene, the city is home to theaters, galleries, and museums. Hop on the bus from UVM (free for undergraduate students) to get to downtown within five minutes, or walk in 15 minutes.

Indulge your senses
Food lovers will be in their element with Burlington’s restaurants’ passion for using locally sourced and organic ingredients. Noted by Business Insider as the city to “lead the future of food,” you’ll find a wide range of regional and international cuisine. Burlington is the birthplace of the world-famous Ben & Jerry’s ice cream and is also known for its delicious maple syrup.

Active and engaged
Here you can participate in a range of year-round activities. Discover Vermont’s four distinct and beautiful seasons as you bike alongside the lake, ski at a luxurious mountain resort, or hike around the peaceful New England countryside.

Getting here
By plane:
Burlington’s own international airport is less than 10km from campus. It receives direct flights from major USA cities including New York City, Chicago, Detroit, and Washington D.C.

By bus:
You can travel from Boston or New York City by Megabus for as little as $5.

Welcome to the Global Gateway Program

Discover a world of difference
The Global Gateway Program (GGP) has been created for international students just like you. It will enable you to improve your language skills and gain academic English proficiency. It will also help you to adapt to university life in the USA. The program provides you with dedicated support to help you achieve success before, during and after your studies.

Learn and achieve
The 2-term GGP is the equivalent of Year 1 of undergraduate study. You will receive English language support and take academic courses led by our distinguished faculty. You are provided with the academic tools, supportive learning environment, and the right amount of course credits to advance to Year 2 of a bachelor’s degree.

GGP Intro
If you need additional English language preparation, GGP Intro is an additional semester of English-only coursework that will prepare you for the academic coursework in the 2-term program.

Fast track option
If you have a higher English language level you may qualify for a 1-term GGP. Upon successful completion, you will enter into the second semester of Year 1.

GGP Pre-Master’s
The GGP Pre-Master’s is designed to prepare you for graduate-level study at the University of Vermont.

What can I expect from the GGP?
- Dedicated staff to help with all aspects of your application, placement, and records.
- Accommodation, meal plans, and insurance available to you from the moment you arrive.
- Continuous support throughout the program, including help with visa issues, advice on personal problems, or information on what you need to adjust to life in the USA.
What does it mean to be a Global Gateway student? It means you’ll be welcomed into our community and fully supported in your academic pursuits from the day you arrive on campus. Answers to frequently asked questions by students looking to apply to the GGP, are listed below.

Do I study English language? Yes. Depending on your language level, you may take the 1-, 2-, or 3-term Global Gateway Program.

Do I study academic courses? Yes. You take specialized academic courses that fulfill the University’s general education requirements and fully prepare you to enter your degree program while enrolled in either the 1-term or 2-term program.

Do I take classes with American students? Yes. During the 1-term and 2-term GGP, you will take your elective math or science courses with American students.

Do I get academic credit that counts towards my degree? Yes. You will take credit-bearing courses in the 1-term or 2-term GGP. Credits vary by course.

Will I get extra academic support and learn study skills? Yes. The Global Gateway Program at the University of Vermont provides all students with additional support to help you succeed academically.

After the GGP, do I continue into the second year of my undergraduate degree program? Yes. Upon successful completion of the 2-term GGP, you will move into the second year of your degree program. Students who complete the 1-term program will move into the second semester of Year 1.

Can I graduate after four years of an undergraduate program? Yes. Students who successfully complete the academic coursework of the GGP and their degree program can graduate after 4 years.

Do I get extra personal help to adjust to living in America? Yes. The GGP staff will support you to ensure you adapt to being an active member of the student community and to living in USA.

Do I lose time in the GGP? No. You do not lose time during the GGP. You can still graduate in four years, similar to direct entry undergraduate students. Graduate students who start in the Pre-Master’s Program can complete their degree in two years.

Is there an application fee? No. There is no application fee for the GGP.

Do I get a university-issued I-20? Yes. The University of Vermont issues the I-20 and will work with you to renew your I-20 after the GGP.

Do I need to submit letters of recommendation to apply? No. Letters of recommendation are not required for Global Gateway Program applicants.

Am I taught by university faculty? Yes. The GGP is taught entirely by expert University of Vermont faculty.

Will it take long to receive an admissions decision? No. GGP applications are reviewed promptly.

Regardless of where you start, you’ll be taught by UVM teachers, take academic courses with other GGP students and academic content courses with American students.
Global Gateway Program
for Undergraduate Study

The GGP curriculum has been developed with international students in mind. This program will ensure you are ready for the challenges of undergraduate university study.

¥ Common math electives are: MATH 019 (Fundamentals of Calculus I) or MATH 021 (Calculus II). The math elective is determined by your math placement test taken prior to arrival. Some students may be placed into a higher or lower-level math course.

◊ Common academic electives include: CHEM 031 (General Chemistry); PHYS 031 (Physics for Engineers); BIOL 003 (Human Biology); and STAT 141 (Basic Statistical Methods).

¤ The UVM Diversity Requirement may include one of the following courses and is required for graduation: GRS 001 (Introduction to Global Studies) and EDFS 001 (Race and Racism in the USA).

± A student’s study plan is determined by his/her arrival English placement test, which may be longer or shorter than his/her original study plan in the offer letter. Changes to a student’s study plan may be made at the discretion of Center Director upon arrival. On-site testing upon arrival will confirm your English level and verify final placement. Students must successfully complete the entire one, two or three consecutive terms of the Global Gateway Program with a minimum cumulative 2.5 GPA (or 3.2 for the School of Business) to matriculate into a UVM degree program.

§ Localized entry requirements are available in most countries. Contact your local Student Enrollment Adviser for the specific academic requirements for your home country.

* May entry is only available as a 2-term program.

† As an alternative, students may study at an Embassy English language center. Contact a Study Group representative for more details.

Meet our Colleges and Schools

UVM offers more than 100 majors across seven different Colleges and Schools, so we know it can be difficult to decide which to choose. Here is an introduction to each of our Colleges to help you decide which program is best for you and your ambitions.

Grossman School of Business
Our University means business
The fascinating curriculum will prepare you for a rewarding career in the business world. Courses offer a broad understanding of all the business basics, including accounting, management, marketing, finance, and operations. It also gives you the opportunity to specialize in one specific concentration.

The best course for the best jobs
Graduates have gone on to work at the world’s most prestigious companies, including JetBlue Airways, General Electric, Goldman Sachs, and PriceWaterhouseCoopers. Almost 80% of business students participate in an internship during their time at UVM.

College of Engineering and Mathematical Sciences
The science of success
The College of Engineering and Mathematical Sciences is home to the School of Engineering, Department of Computer Science, and Department of Mathematics and Statistics. The College offers a stimulating, professionally oriented academic program, based on challenging course work, valuable field experience, and intensive interaction between students and faculty.

Engineer your career
Our reputation as a research university enables undergraduates to work on design projects with industry leaders, such as Goodrich Aerospace and IBM. Our recognized courses, led by an expert faculty, will provide you with the solid foundations for a successful career in engineering.

College of Nursing and Health Sciences
For healthy minds
Working in partnership with UVM Medical Center, the College of Nursing and Health Sciences provides a truly exceptional academic experience. Our courses offer you a unique opportunity to gain hands-on experience in a clinical practice setting, and gain the necessary skills to become a fully qualified health-care professional.

UVM Medical Center was named ‘Best Regional Hospital’ in the U.S. News & World Report. The Annual University Health System Consortium also ranked it ‘#1 in Patient Safety.’ The University of Vermont is ranked among the ‘10 Best Colleges to Study Health Professions,’ due to the number of quality majors within the field, small class sizes, collaborative learning with professors and the high salaries graduates receive throughout their careers.

The Rubenstein School of Environment and Natural Resources
Let nature take your course
At the Rubenstein School of Environment and Natural Resources, the Green Mountain landscape acts as a living, breathing classroom. You will work in the field on research assignments that combine natural sciences with social perspectives. In this school, you’ll discover the knowledge, skills, and values to become an ecologically responsible leader of tomorrow.

Expand your horizons
The state-of-the-art lab facilities enable you to truly understand the world around you. The University of Vermont also collaborates with other research centers across Vermont, and many undergraduates extend their studies by joining research projects supported by the National Science Foundation, Harvard Forest Summer Research Program, and the Smithsonian Environmental Research Center.

College of Arts and Sciences
The fine art of education
The College of Arts and Sciences will give you a small, liberal arts school feel with the resources of a large research state university. Choose from 45 different majors across a wide spectrum of disciplines – from fine arts and humanities to social, natural and mathematical sciences. Each of the courses promises an engaging experience that generates creativity, encourages debate, and stimulates thought.

College of Education and Social Services
Action through engagement
The College of Education and Social Services provides undergraduates with the necessary skills to become lifelong educators. You will gain first-hand experience in a classroom environment in the on-campus Children’s Center and within the Burlington School District. This is essential preparation for a career addressing the educational needs of Vermont and beyond.
College of Agriculture and Life Sciences
Cultivate your skills
The College of Agriculture and Life Sciences has an impressive range of courses in a stimulating environment. While still connected to traditional agriculture, the College’s diverse program addresses many of the current issues facing the future on a local and global level – from molecular genetics and animal ecosystems to human nutrition and international development.

The College of Agriculture and Life Sciences’ degree programs are backed by millions of dollars in competitive research funding. The College received $4.7 million of research awarded to faculty in 2014 and has four off-site research and teaching facilities across the state.

90% of faculty hold a Ph.D. or the highest degree in their field.
Global Gateway Program for Graduate Study

The Pre-Master’s Program is designed to prepare students for graduate-level study at UVM. Students can choose from six challenging and inspiring degree programs within the College of Engineering and Mathematical Sciences (CEMS).

In CEMS, students have the opportunity to gain knowledge of supporting disciplines within and outside the college.

The advantages of graduate study at UVM CEMS
- UVM graduate programs are very flexible, encouraging multidisciplinary and cross-disciplinary study.
- CEMS is a close-knit community. Our graduate students collaborate closely with our outstanding faculty.
- CEMS is home to many excellent research centers, including Complex Systems Center, Smart Grid IGERT, Sustainable Transportation System Solutions, Vermont Advanced Computing Center and Vermont Space Grant Consortium.
- Many opportunities for student-funded research opportunities working closely with faculty.

The 2-term program introduces four courses per semester taught by University faculty and offering academic credit. Two of these courses each semester will be taught with other graduate students for graduate credit.

Students will earn a total of 24 credits, 12 towards their graduate degree program.

Progression requirements:
Oral test proficiency level equivalent to direct admit requirement of 6.5 IELTS or 90 TOEFL.
3.0 GPA in UVM coursework.

Choose your program:

Engineering Programs

**MS in Civil and Environmental Engineering**
UVM offers an MS degree in Civil and Environmental Engineering (CEE) with research, project, and coursework options. Our outstanding CEE faculty with expertise in materials and structural, geotechnical, transportation, hydrological and environmental engineering provide exciting teaching and research opportunities to address societal challenges related to sustainability and energy, infrastructure systems, hazard mitigation and climate change, and environmental and public health.

**MS in Electrical Engineering**
UVM offers an MS degree with research, project, and coursework options led by outstanding Electrical Engineering faculty addressing global issues and technological challenges. Opportunities also exist for collaborative research projects with industry partners and national research laboratories. Research areas include power/energy systems, wireless communications, electromagnetics, signal processing, materials and devices, microelectronics, and control systems.

**MS in Mechanical Engineering**
Success in the Mechanical Engineering program is largely due to the distinguished faculty whose research is recognized nationally and internationally through innovation, published journals, and research awards. Recently, the faculty has won major awards from the Department of Defense, Department of Energy, NASA, and the National Science Foundation. The focus is to create a research environment that is highly interdisciplinary and collaborative from which students can thrive.

Research opportunities for MS students in mechanical engineering at UVM exist in six areas: (1) Computational multiscale simulations and theory; (2) Aerospace engineering; (3) Biology and medical research; (4) Dynamical systems; (5) Micro and nanotechnology; and (6) Sustainable energy and manufacturing.

Computer Science/Mathematics/Statistics Programs

**MS in Computer Science**
Computer Science program offers three options for MS degrees; coursework-only or project-based MS are ideal for more professionally minded students, whereas a thesis-based MS is well-suited to those interested in research. All MS students are initially accepted into the coursework-only option and then some transition into the project- or thesis-based option when they identify a faculty supervisor. The program has research-active faculty in diverse areas including bioinformatics, combinatorial design, complex systems, crowd-sourcing, database, data mining, data streaming, distributed systems, evolutionary computation, evolutionary robotics, image analysis, knowledge-based systems, machine learning, pattern recognition, programming languages, symbolic logic, web information exploration, and wireless sensor networks.

**MS in Mathematics**
Students in the mathematics program can choose a subject from analysis, algebra, discrete mathematics and applied mathematics. Students in the MS program can pursue research with faculty specializing in classical analysis, harmonic analysis, Fourier analysis, algebra, number theory, graph theory, combinatorics, complex systems, fluid mechanics, biomathematics, differential equations, numerical analysis, and modeling.

**MS in Statistics**
This degree program is designed primarily for students who plan careers in business, actuarial science, industry, government or advanced training in disciplines that make extensive use of statistical principles and methods. The faculty is deeply involved in consulting and collaborative research in a wide variety of fields, including industry, agriculture and in the basic and clinical medical sciences. These research activities offer students unique opportunities to apply their classroom training to ‘real world’ problems.
Vermont is about the green environment and enjoying the outdoors. Studying here is about what can I do today to become more unique tomorrow. For all of that and more, come to Vermont.

Mohammed Metwally, United Arab Emirates, Class of 2014
MS Electrical Engineering
Student support to help you succeed

Dedicated, individualized resources
UVM student services provide academic support outside of classroom hours. This means that all of our undergraduates receive the support they need to complete their journey to academic and career success.

Student Success Managers
The Global Gateway Program’s Student Success Managers will meet with you from the day you arrive on campus, providing you with the support you need to succeed.

Resident Advisors
For undergraduate students living in the residence halls, Resident Advisors can answer any questions you have relating to your on-campus student accommodation.

Office of International Education
The Office of International Education offers helpful advice if you have any visa questions or concerns.

Student Health Services
Student Health Services provides a caring, comprehensive and holistic approach to the health of UVM students. You will be fully covered under the mandatory UVM health insurance plan as a Global Gateway student.

Community Hour
Join one of our bi-weekly meetings and workshops for advice and tips about how to succeed in your studies at UVM. From time management to academic integrity, you will gain a lot from these informative discussions.

The Learning Cooperative
Undergraduate students can benefit from free subject area tutoring for academic courses, delivered by students with an outstanding academic record.

University Writing Center
Once you go on to study your degree at the University, you can visit the University Writing Center for free one-on-one assistance with understanding your writing assignments, developing your ideas, or working on a paper.

Police Services
UVM Police Services is an accredited law enforcement agency, focused on maintaining campus safety.

Student Dining Services
Serving all undergraduate students, UVM Student Dining Services operates 17 dining facilities across campus, from small cafés to all-you-can-eat buffets. Graduate students can choose to purchase a meal plan through Student Dining Services.

Study Hall Tutoring
These weekly tutoring sessions focus on English language study, understanding math word problems and language, and additional academic course content for a variety of subjects.

“
Our GGP students get exceptional advising and support, which makes a large difference in our students’ overall success. The faculty and staff of the GGP are all focused on student success. The student experience is personalized and intensive, which prepares them to succeed during the rest of their university career.”

Margaret Coan
Student Success Manager
Where to go on campus

UVM is committed to providing you with a forward-thinking educational experience that offers intellectual challenge as well as the chance to develop community and environmental awareness. Our state-of-the-art facilities help us achieve this.

Our facilities promote great work as well as relaxing downtime:

**Bailey/Howe Library**
In addition to housing the largest collection of books in Vermont, the library also contains the Cyber Café and Writing Center.

**Davis Center**
The heart of campus life, this student center is a great place to eat, relax, and study.

**Research Facilities**
UVM is home to dozens of research facilities both on and off campus. Innovative facilities include the Entomology Research Laboratory for environmental sciences, the Complex Systems Center for engineering, and the Vermont Advanced Computing Center for computer science.

**Marsh-Austin-Tupper (MAT)**
MAT is home to the Global Gateway Program at the University of Vermont. As an undergraduate GGP student, you will live and study in Marsh-Austin-Tupper. GGP Pre-Master’s students will be placed in university-approved housing.

**Campus area transportation system**
A convenient shuttle service makes it easy to navigate the campus. It stops at several places, including the Global Gateway Program offices.

**Guterson Fieldhouse and Patrick Gymnasium**
Home to the Vermont Catamounts sport teams, the fitness center is open to all students.

**Campus dining**
The University features 17 dining facilities, including all-you-can-eat cafeterias, small cafés, a campus pub, and a student-run deli. You’ll have a wide range of cuisine to choose from.

**Safety on campus**
Located in the safest state in the country, the University has taken extra steps to ensure students feel at ease. Highly visible wall-mounted or free-standing blue lights are placed throughout the campus, providing instant two-way communication with police services.
Accommodation

Your comfortable, convenient second home
UVM requires students to live on campus for the first two years of their undergraduate degree program. Undergraduate GGP students will live in Marsh-Austin-Tupper (MAT), located in the heart of the student community. Conveniently, it is also home to the Global Gateway Program support services.

On-campus accommodation for undergraduates
MAT comprises three wings. Each wing requires a key card for access to ensure the security of our students. Additional amenities include:

- **Fireplace lounge**
  Warm up during the winter months in the cozy lounge space located in the lobby, complete with comfortable couches and a gas fireplace.

- **Community kitchen**
  Share your traditional cuisine with your new friends in the community kitchen. It includes two stoves and ovens, sink, refrigerator, and plenty of counter space for any dish you desire.

- **Multipurpose room**
  The lobby of MAT features a multipurpose room that is great for hosting community events or providing a quiet place to study.

- **Mailboxes**
  You will have access to a locked and passcode-protected personal mailbox to receive your packages and letters while living on campus.

- **Two-person room**
  Each room comes with two twin-size beds, two desks, and two dressers for comfortable living with your roommate. Rooms are secured with a key that only you and your roommate have.

- **Further information**
  After year two, you can choose to continue to live on campus, or move into an off-campus residency. On-campus accommodation includes traditional two-person dormitory rooms, suite-style housing, or on-campus apartments.

  If you wish to live off campus after year two, you can rent apartments ranging from a one-bedroom studio to a five-bedroom house.

Off-campus accommodation for graduates
PMP students will be living in the Spinner Place apartment complex in nearby Winooski Vermont, 2.5km from the University of Vermont Campus.

- **About Spinner Place**
  Easily accessible by public transportation (free for UVM students), Spinner Place is described as a place that combines the fun and freedom of off-campus housing with the convenience and amenities of living on campus. Fully-furnished apartment homes are available in 2-and 4-bedroom floor plans.

- **Living in Winooski, Vermont**
  Downtown Winooski, Vermont is a vibrant and diverse community located just outside of downtown Burlington. Overlooking the Winooski River, you will be in walking distance from great restaurants serving local and international cuisine, as well as coffee shops and music lounges.
Work hard, play hard
An active and dynamic campus life is just as important as your academic life. UVM offers experiences that reflect our students’ diverse academic and personal interests. Below are just some of the 200+ clubs and organizations you can get involved in.

**NCAA Division I Athletics (men's and women's teams)**
- Alpine Skiing
- Ice Hockey
- Basketball
- Soccer

**Club and sports**
- Badminton
- Volleyball
- Swimming
- Racquetball
- Tennis
Our students

We asked international students to share their thoughts about the University of Vermont and the Global Gateway Program. This is what they said:

“" My favorite place on campus is the Davis Center. I enjoy relaxing with friends and playing a game of pool when I’m not in class. It’s conveniently located and has lots of food options as well.”

Pedro Eduardo Gregio Nascimento, Brazil, Class of 2018
Neuroscience

“" UVM is ranked very high for the courses I’m pursuing. I also love how close downtown is to the campus. The people in the community are lovely, very inclusive and very welcoming to other cultures.”

Akriti Bhargava, India, Class of 2015
Political Science and Environmental Studies

“" I chose to study in the USA because an international degree gives you a lot more opportunities, and I wanted to study abroad and not do what every other engineering student in Norway does. UVM has an incredible engineering program and a super cool campus.”

Jørgen Grav, Norway, Class of 2016
Mechanical Engineering

“" I joined in the Cynic and became staff writer for the news section. I have more than five articles published. By joining the Cynic I have improved my writing skills, gained experience for being a journalist as well as made lots of friends.”

Chen Yang, China, Class of 2017
Business Administration

“" I live with a Chinese roommate, and I love it. He has been my best friend since I started in the GGP with him. The accommodation is great; there’s a lot of room to personalize it however you want.”

Alex Gacutan, Ukraine, Class of 2017
Public Communication
As a student at UVM, you will learn everything you need to become successful in your career, whatever you choose to do. By joining UVM, you’ll be part of a tradition going back hundreds of years.

ALUMNI

The University of Vermont boasts an impressive alumni network of over 92,000 individuals. They have gone on to secure some of the most sought-after positions in business. Notable former students include:

Brian Halligan
CEO and Co-founder of HubSpot

John McGill
President, Doctors Without Borders, recipient of the 1999 Nobel Peace Prize

Kathy Giusti
Founder and CEO of Multiple Myeloma Research, named one of the ‘World’s 50 Greatest Leaders’ by Fortune magazine

Jon Kilik
Oscar nominee and producer of ‘The Hunger Games’ film series

Stephen Penwell
Equities Managing Director, Morgan Stanley

Jordan Saxe
Director of the Americas, NASDAQ Stock Market

GRADUATE SCHOOLS

Graduate schools recently attended by University of Vermont graduates

Brown University
Columbia University
Harvard University
Massachusetts Institute of Technology
Yale University
University of Oxford
University of Vermont

I learned how to get a business started and the basics of accounting and finance. I was recruited before graduation for an international development consultant role. UVM provided me with a well-rounded cultural exposure to help me operate in different demographics.

Alma Hartman, India, Class of 2012

Studied Business with concentrations in Finance and International Management. Now a co-founder of her own company.

#18 among USA public universities for number of graduates admitted to top graduate schools

The Wall Street Journal
Career services

Our Career Center is a one-stop shop for all networking and career-related inquiries. We offer the following services:

**Dedicated International Career Counselor**
Supporting international students in their job and internship searches.

**Four-year plan for career success**
Designed to identify goals, strategies, and next steps for each year of study, leading to strong career prospects upon graduation.

**Catamount Job Link**
Used by both undergraduates and alumni, this online resource offers jobs, internships, and networking opportunities.

**Career + Experience Hub**
The Career + Experience Hub is a great resource if you are uncertain about your internship or job search. This essential service provides you with all you need to know to enhance your personal and career development – from interview preparation and résumé building to networking.

**Internships**
Internships are a large part of the undergraduate experience. They offer an unparalleled opportunity to acquire essential experience in a professional environment. Internships also provide a chance to explore career directions, put learning into practice, and establish vital contacts. Our undergraduates have interned at many of the country’s leading companies, including:

- IBM
- GE Healthcare
- Keurig Green Mountain
- NBC News
- MTV
- National Science Foundation
- University of Vermont Health Care
- Vermont Public Radio
- TD Bank

**Networking**
The Alumni Association hosts numerous networking events in all major USA cities, including Boston, Washington D.C., New York City, and San Francisco. Visit alumni.uvm.edu to find out more.

91% of graduates are employed or in graduate school within a six months of graduation

How to apply

Application checklist and required documentation:

- A complete and accurate application form including your intended degree program, and your email address and telephone number.
- A scanned copy of your official test scores from an English language test such as IELTS or TOEFL. Don’t have an English language test score? Contact us about Embassy English or the free Password test.
- Submit the enrollment deposit payment.
- Submit a scanned copy or original recent bank document (dated within three months) translated into English indicating sufficient funds.
- Receive I-20 for your visa interview.
- For Pre-Master’s applicants: three letters of recommendation.
- A copy of the identification pages of your passport.
- A copy of your current I-20, visa, and I-94, if applicable.

Before you arrive

- Submit your housing application.
- Notify us when you’ve received your visa.
- Send your flight arrival information form.
- Pay your next tuition payment.
- Review your pre-arrival documents.
- Prepare your medical immunization records.
- For undergraduate students: Take the math placement test online. You will be sent the link and directions by UVM after you confirm your enrollment.
- For Pre-Master’s applicants: three letters of recommendation.
- A copy of the identification pages of your passport.
- A copy of your current I-20, visa, and I-94, if applicable.

When you arrive

- Bring your original academic transcripts and leaving certificate in sealed envelopes with the school stamp or seal and official English translation.
- Official academic records issued by the previous institution may be sent directly to University of Vermont, prior to orientation.
- For undergraduate students: Take the math placement test online. You will be sent the link and directions by UVM after you confirm your enrollment.

Apply via a local agent
Please contact your agent if you have any questions.

Apply directly to an undergraduate degree program
Applicants who meet the university’s English level requirements for a degree can choose to apply directly to a bachelor’s degree or to join the GGP.

Undergraduate Direct Entry applicants must meet all of UVM’s entry requirements, including a minimum TOEFL or IELTS score, complete the Common Application and provide supporting documentation, including SAT or ACT scores. Notify the admissions office when you have completed your Common Application by submitting the Direct Admission Information Form.

Contact the admissions staff for additional academic requirements for specific Colleges and Schools.
